Forecast for Thursday 16 May 2024

Weather: A dry and clear early morning period. Sunny through the morning, gradually becoming cloudier. A chance of showers early afternoon, these perhaps heavy with a small risk of thunder. Becoming increasingly cloudy from the east later in the afternoon and evening with rain, which may turn heavy for a time. Cloud lowering again into the evening.

Chance of cloud-free hill tops above 800m: 80% through the morning and afternoon, 40% later.

Low Cloud and visibility: Some low cloud to the west of the park initially but soon clearing. Bases generally above summits by day, lowering from late afternoon associated with rainfall to 600-700m. Good visibility with clear views of distant hills, moderate in rain or showers, poor in cloud at elevation later.

Meteorologist's View

A good start to the day, sun protection advised. Waterproofs recommended in the afternoon.

Forecast for Friday 17 May 2024

Weather: A cloudy and murky start on Friday with low cloud covering hill tops and outbreaks of rain. Cloud lifting and breaking through the day, some brief brighter spells in the afternoon and the risk of an isolated heavy perhaps thundery shower.

Maximum wind: Northerly 17 mph.

Chance of cloud-free hill tops above 800m: 20% initially, becoming 80% by mid-morning.

Low Cloud and visibility: Extensive cloud down to 300-400m initially, lifting and breaking through the morning, rising above summits. Visibility poor in cloud initially, becoming generally good at all elevations later with clear views of distant hills. Perhaps briefly moderate in isolated showers.

Temperature: **Valleys:** Plus 12 Celsius becoming 18 Celsius.
At 800m: Plus 10 Celsius.
Freezing level: Above summits.
